

Drugs and Alcohol Policy - Students

The possession, purchase or use of alcohol or recreational drugs (also including prescription drugs if they are taken in a manner contrary to labeling) is strictly prohibited throughout the entirety of the Juneau Icefield Research Program regular season. This policy is in effect during the in-town portions of the program as well during the time on the Icefield. This policy is relevant for all participants of the program. Violation of this policy will result in disciplinary action, up to and including expulsion from the program and immediate removal from the Icefield at the participant's expense.

Prohibited Activities

Recreation and/or activities beyond camps are only permitted with prior approval by the Director of Academics (Seth Campbell), the Director of Operations (Annie Boucher), the Field Travel Safety Manager, or the Field Operations and Safety Manager (Newt Krumdieck). This includes any area outside the immediate area of the camps. These activities generally require the participation of one or more staff members. Unapproved participation in out-of-camp activities can result in disciplinary action, up to and including expulsion from the program and immediate removal from the Icefield at the participant's expense.
